Give Joy of liberty to your customer to fill their Glasses on their Table itself.

A Beer Tube is a self-serve beverage dispenser that allows customers to fill their own glasses at the table. Tubes are filled at the bar with Draft beer system, then taken to the table and placed in a customized base where a group of customers can enjoy an ice cold beverage.

All Beer Tubes consist of a simple Four -part design of a tube, tap, Ice chamber and base The interchangeable

parts allow for efficiency in serving, cleaning and cost-effectively replacing parts to protect your investment. For bars and restaurants, Beer Tubes are the next generation of the traditional pitcher, with the added benefit of a **"WOW FACTOR"** that will enhance your customers' experience and drive draft sales.

Comes with chrome plated Brass Tap
